📂 PROJECTS

Library Management Project
HTML,CSS,BOOTSTRAP,SQL,PHP Utilized HTML, CSS, Bootstrap, SQL, and PHP to develop a responsive and user-friendly Library Management System. Collaborated with a team of developers to design and implement the front-end interface. Ensured optimal user experience across devices through a visually appealing and intuitive user interface.

Amazon clone
Developed a comprehensive Amazon Clone Front-End project, showcasing proficiency in HTML, CSS, and JavaScript. Successfully replicated key features of the popular e-commerce platform, including dynamic product listings, and an interactive shopping cart. Implemented responsive design principles for optimal user experience across devices.

Responsive Website
www.ssfixturing.com
Aspiring web developer with a passion for creating responsive and visually appealing websites.
Developed www.ssfixturing.com using HTML, CSS, and JavaScript to showcase proficiency in front-end technologies. The website serves as a testament to my skills in crafting user-friendly interfaces and implementing interactive features.
